

**Quick Guide to
Pest Solutions**

Flies

Solving fly problems involves many things. The primary solution to house flies is sanitation. This is also true with fruit flies and phorid flies. Cluster flies present a special problem related to the specific location.

Paratex will gladly consult with you in commercial situations where fly control is an ongoing concern. There are a number of products that can assist you as well, but each location is unique. Our consultation is free and with no obligation.
